

MiNDIS

Trusted Technology Partner for
NDIS Service Providers

Independent Software Vendor

Metisc is a Microsoft Dynamics 365 specialist and an Independent Software Vendor providing software and integration services

We are a trusted partner with Microsoft Silver Small and Midmarket Cloud Solution Provider competency and our team has the experience and skills to support you

We work with Microsoft Dynamics 365, Sharepoint, Quickbooks, MYOB, EXO/EXOnet, XERO, iMIS, Access, Outlook, Exchange, Joomla, Drupal & Wordpress

We understand that ease of use and training are key to high user adoption. We can provide individual, classroom, or self - paced training for your staff.

Once the solution is live, we will support you with Cloud Management, Help Desk and other add - ons.

The challenges disability service providers face in a market-based system is how to improve their operational **efficiency** while remain **profitable** under NDIS tight pricing restriction scheme. Our solution help Community Service Provider achieving this objective while preserving their set of standard.

With MiNDIS, Community Service Providers and NDIS general provider can create opportunities to provide extraordinary value to participants in improving their dignity and well-being by ensuring timely delivery and improving the way provider interacts with the participant.

Here are key MiNDIS for our Community Service Providers support:

- Track and manage participant requests
- Manage Service Agreement
- Participant Plan Management Providers
- Manage Service Bookings
- Manage Payments and Assurance through Myplace Provider Portal
- Complete application integration between your accounting system, finance, ERP and CRM

We like to integrate software packages and simplify how your business operates - our flagship products extend and enhance the functionality of **Dynamics 365, Accounting System, and iMIS® Non Profit Software**

PARTNER OF NDIS SERVICE PROVIDER

Metisc will help providers to provide full control, choice & purchasing power to their eligible individuals. Substantially increase the disability workforce and automate the work process of NDIS providers
